'People will forget what you said. People will forget what you did. But, people will never forget how you made them feel.'

- Maya Angelou

**Dear Parents and Students,
Greetings from NLLIS!!**

We hope you have all enjoyed the much needed vacation and have rejuvenated well. The Half Yearly Assessments are completed bringing an end to the Term 1 of the Session 2022-23. I am sure all my students would have done their best and will continue their efforts to outshine themselves in their future endeavours . As we begin Term 2, I look forward to seeing my students consistently learning, pushing their boundaries and challenging themselves beyond their comfort zone .

This month, let us all understand the importance of a very exquisite virtue- **KINDNESS**. Kindness is an act of being polite towards others. An act of kindness simply means a selfless act of helping someone in need or in general helping an individual in order make him/her happy without any expectation. Kindness can help to change the world, make this world a better place to live. Research has proven that kindness can help increase happiness, success, friendship, reduce stress and improve emotional wellbeing. Also, being kind to one another gives us the opportunity to connect with others, building a stronger sense of community and unity with friends, family, neighbours and even strangers. Kindness is not just limited to human beings; one must display kindness to animals and plants as well. When you are kind you lead a peaceful, happy life and you sleep better at night. Hence let us all inculcate this virtue with just three simple steps.

- ☐ Be polite in your words and actions. Avoid using harsh words and gestures that can hurt people physically and mentally.
- ☐ Help people in need with whatever you can.
- ☐ Be thankful for everything that you have.

Inculcating a few new practices everyday can bring about a great change in our personality and help us be a better person. We request all parents to help school in developing this virtue in our students. Let us work together to help our children grow into beautiful individuals.

Have an Outstanding October!!

**Thanking You,
Regards,
Mrs Ratula Saha,
Principal,
NLLIS.**

DIVINE BEAUTY

It was one fine day,
that you came in like a ray,
I had many things to say,
But was unable to find a way!

Whenever I catch a sight of you,
I feel like it's me in you!
Whenever I sight the mirror of me,
I find you in me!

The amount of elegance in you,
is gifted to a very few like you!
The amount of talent in myself,
is gifted to very few like ourselves.

The more I seek to unravel you,
the more I feel puzzled by you.
All the mysteries owned by you,
will be decoded only with you.

Eventually, tell me honestly, do you
have an angel residing inside you?
or am I getting baffled because,
the angel is none other than you!

MY FRIEND

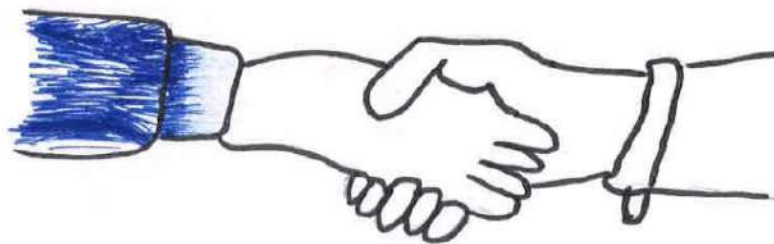

English
Self-composed poem

I met you as a stranger
I took you as a friend
I hope our friendship
Will never end.

It is hard to find friend like U
It is very painful to lose you
and impossible to forget you
I can't leave you

Best friend stick together
till the end
They are like a straight line
that will never bend.

Life goes on and on
and people shall change
But our friendship will remain
Same and I will never forget
you in My life Time.

THANK YOU FRIEND

Since the day we met
we had something in common

But when I saw you
you brought things to life

When I sleep I have a dream of you

From the day you came you changed my life

When I saw your face your forgiven eyes
so I ~~will~~ look back at you from the other side

From the day I found you
I knew that you were the one

I might have only few but
I am so glad to have you

I will always remember you

Because as it all comes clear to me
you are my best friend, my family.

उत्तराखंड की प्रकृति

प्रकृति कुछ बोलती नहीं,
लेकिन एक अलग सहसास करवाती है
उत्तराखंड की बोली, भाषा, खान-पान, पहनावा,
हमें अद्भुत अनुभव करवाती है।

प्रकृति कुछ बोलती नहीं,
लेकिन एक अलग सहसास करवाती है।
सफ़ेद चादर से लिपटी धरती,
और नीला आसमान एक समान हो जाती है।

इसलिए मैं कहती हूँ,
प्रकृति कुछ बोलती नहीं,
एक अलग सहसास करवाती है।
अपने स्नेह माव को हम सब पर बरसाती है।

TRIANGLE DAY

Did you know that the triangular shape is the strongest shape and so is the base of all construction? Yes and to instil the ability to find and apply the concepts in daily life, the students of pre-primary were introduced to the concept of triangles. The triangles are not just a closed figure with three sides but also the shape that is considered to be structurally the strongest and so is used more frequently in the construction of bridges, buildings etc. Students made triangles with ice cream sticks and identified the shape in their surroundings .

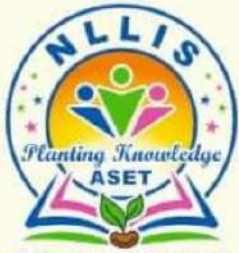

Green DAY

Green is the colour of prosperity , safety, energy and growth. Students of Pre primary were introduced to the colour Green via various activities during the green colour day. The students were also educated about keeping the environment green and clean with respect to the Swatchh Bharat Abhiyaan. The importance of using dustbins instead of littering was also a part of the day's activity.
